Blach | Cahill, Northern Calif. (233 spaces)

Specialty Trade Services

Peak Performance of Systems, Equipment, and Facilities

- Mechanical Installation & Repair
- Electrical Systems
- Process Equipment & Piping
- Facility Infrastructure

SilMan team members pause for a photo while installing a SilMan-engineered mechanical-electrical solution replacing six conveyor lines. This project was repeated at three locations for a leading fulfillment provider.

“SilMan is experienced in construction, equipment installation and ongoing facility project support.”

- Brown Forman

Parts and Service

Optimize Your Investment

- **Strategic Parts Alliance**
- **Maintenance and Repair**
- **Real-Time Emergency Response**
- **National Service Area**

High-performing operations result from constant vigilance. SilMan's veteran technicians and service managers deliver an industrial-strength partnership to drive superior profitability for equipment and systems.

Culture of Safety

SilMan's in-house safety professionals guide people and processes to achieve the highest levels of Federal, State, and Industry standards.

- Team Member Training
- Job Site Audits
- Job Hazard Analysis
- OSHA30 Certified

Millwright team rigging 3,000 lb motors for elevated conveyor line at a new UPS regional hub

Like everything else at SilMan, risk management is not a solo effort. It is a cooperative action by the entire Team. This synergy of policy and practice is at the core of our **ZERO INCIDENTS**, injury-free, work environment.
